

**2023 NATIONAL
RESEARCH CONFERENCE**
FOR THE PREVENTION OF
FIREARM-RELATED HARMS

Chicago, IL
November 1-3

CONFERENCE INFORMATION

Conference Mission

The 2023 National Research Conference for the Prevention of Firearm-Related Harms will highlight the current state of science and research on firearm-related harms across the lifespan. The Conference is organized by The Research Society for the Prevention of Firearm-Related Harms.

Statement of Conduct

The 2023 National Research Conference for the Prevention of Firearm-Related Harms' goal is to enable attendees to receive continuing education, build professional networks, and discover new research strategies for professional use.

The Conference seeks to provide all attendees the opportunity to benefit from the event in a harassment-free environment. All participants are expected to observe these conduct guidelines in all conference venues. Participants asked to stop hostile or harassing behavior are expected to comply immediately. We recognize a shared responsibility to create and hold that environment for the benefit of all.

Photo/Video Statement

Attendees grant the 2023 National Research Conference for the Prevention of Firearm-Related Harms (the "Conference") the right and permission to use photographs and/or video recordings on Conference and other websites and in publications, promotional flyers, educational materials, or for any other similar purpose without compensation to attendees.

Attendees understand and agree that such photographs and/or video recordings may be placed on the Internet. Attendees also understand and agree that they may be identified by name and/or title in printed, Internet or broadcast information that might accompany the photographs and/or video recordings.

If attendees do not wish to be included in published materials, please request a sticker upon registration check-in at the event.

2023 CONFERENCE COMMITTEES

Thank you to all the committee members, who have dedicated countless hours to making this conference a success.

Society Officers

Sonali Rajan (Teachers College, Columbia University), President
Jesenia Pizarro (Arizona State University), Secretary
Marc Zimmerman (University of Michigan), Treasurer

Society Board

Charles Branas (Columbia University)
Shani Buggs (University of California, Davis)
Patrick Carter (University of Michigan)
Rebecca Cunningham (University of Michigan)
Stephen Hargarten (Medical College of Wisconsin)
Andrew Morral (RAND Corporation)
Megan Ranney (Yale University)
Joseph Richardson Jr. (University of Maryland)
Therese Richmond (University of Pennsylvania)
Frederick Rivara (University of Washington)
Ali Rowhani-Rahbar (University of Washington)
Daniel Webster (Johns Hopkins University)

Awards Committee

Co-Chairs:

Ali Rowhani-Rahbar (University of Washington)
Joseph Richardson Jr. (University of Maryland)

Members:

Ruth Abaya (Children's Hospital of Philadelphia)
Christopher St. Vil (University of Buffalo)
Tanya Sharpe (University of Toronto)

Communications Committee

Co-Chairs:

Megan Ranney (Yale University)
Patrick Carter (University of Michigan)

Members:

Kate Barnes (University of Michigan)
Navjot Buttar (Columbia University)

Scientific Committee

Co-Chairs:

Shani Buggs (University of California, Davis)
Patrick Carter (University of Michigan)

Members:

Deborah Azrael (Harvard University)
Emmy Betz (University of Colorado, Anschutz)
Philip Cook (Duke University)
Cassandra Crifasi (Johns Hopkins University)
Stephanie Hawkins (RTI International)
Rose Kagawa (University of California, Davis)
Daniel Semenza (Rutgers University)
April Zeoli (University of Michigan)

Staff:

Jessica Roche (University of Michigan)
Michelle Thomas (University of Michigan)

CONFERENCE SCHEDULE

November 1

9:00 a.m. - 10:30 a.m. Workshops and Oral Presentation

Workshop: The role of Extreme Risk Protection Orders in preventing firearm violence: Research and implementation opportunities for the field (Main Ballroom)

Josh Horwitz, Johns Hopkins University
Lisa Geller, Johns Hopkins University
Shannon Frattaroli, Johns Hopkins University
Chelsea Parsons, Everytown for Gun Safety
Spencer Cantrell, Johns Hopkins University
Ruhi Bengali, Everytown for Gun Safety

Workshop: Strategies to leverage participatory methods in firearm-related violence and suicide prevention research (Sheraton I)

Krista Mehari, Vanderbilt University
Caitlin Elsaesser, University of Connecticut
Reagan Thomas, University of South Alabama
Jasmine Coleman, University of Tennessee
Taylor Stevens, Vanderbilt University

Workshop: How to better use and improve data systems for firearm research: Opportunities and challenges (Sheraton III)

Catherine Barber, Harvard University
Paul Bonta, Safe States Alliance
Matt Hall, Children's Hospital Association
Christian Pulcini, University of Vermont

Concurrent Oral Presentations: Advancing prevention in healthcare settings (Erie)

- **Frequency and characteristics of Black and American Indian/Alaskan Native individuals who are screened for firearm access by health care providers**, Allie Bond, Rutgers University
- **Excess VA healthcare costs associated with nonfatal firearm injuries among US military Veterans, 2010-2019**, Kathleen Carlson, VA Portland Healthcare System
- **Racial and ethnic differences in prior-year emergency department (ED) visits among North Carolinians presenting to an ED for a firearm-related injury**, Lucas Neuroth, University of North Carolina at Chapel Hill
- **Feasibility of integrating a bedside medical-legal partnership into firearm violence recovery: The Recovery Legal Care Program**, Rhea Pillai, University of Chicago
- **Emergency medical services encounters for firearm injuries – 497 counties, United States, 2018 - 2022**, Adam Rowh, Centers for Disease Control and Prevention
- **A model of comprehensive care for gun violence survivors at an adult Level I trauma center**, Terri deRoos Cassini, Medical College of Wisconsin

10:30 a.m. - 10:45 a.m. Break

10:45 a.m. - 12:15 p.m. Concurrent Oral Presentations

Concurrent Oral Presentations: Examining intimate partner violence: Intersections and interventions (Main Ballroom)

- **Intimate partner homicide against older women: The role of firearms across age and relationship status**, Lynn Addington, American University
- **Developing gun violence prevention ecosystems**, Alicia Nichols, National Center on Gun Violence in Relationships
- **Racial disparities in orders to surrender firearms for civil Domestic Violence Protection Order cases**, Julie Kafka, University of Washington

CONFERENCE SCHEDULE

10:45 a.m. - 12:15 p.m. Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Examining intimate partner violence: Intersections and interventions (Main Ballroom)

- **An analysis of Domestic Violence Restraining Order relinquishment laws and their associations with suicide and intimate partner homicide**, Stephen Oliphant, University of Michigan
- **My Safety Steps: A digital firearm safety promotion intervention for women in abusive relationships**, Bushra Sabri, Johns Hopkins University
- **Prevalence rates of nonfatal firearm-related intimate partner violence in adolescents**, Taylor Stevens, Vanderbilt University

Concurrent Oral Presentations: Understanding and addressing disparities (Part I) (Sheraton I)

- **Firearm ownership and support for political violence: Findings from a nationally representative survey in the United States**, Garen Wintemute, University of California, Davis
- **Racial/ethnic disparities in the dose-response relationship between cumulative risk exposure and increased gun carrying odds among male U.S. adolescents**, Erin Grinshteyn, University of San Francisco
- **Mental distress as a mediator between racism experience and firearm behavior among Asian Americans**, Hsing-Fang Hsieh, University of Michigan
- **Why Parkland, not Pulse? Racially disparate policy responses to mass shootings**, George Markarian, Loyola University Chicago
- **Short- and long-term associations between municipal spending and racial disparities in youth firearm violence**, Veronica Pear, University of California, Davis
- **Measuring the effect of historical structural racism on community firearm violence in 500 US cities**, Ariana Gobaud, Columbia University

Concurrent Oral Presentations: Criminal justice and firearm crime (Sheraton III)

- **How crime fears and status threats shape gun attitudes and behaviors**, Tara Warner, University of Alabama at Birmingham
- **Understanding the relationship between state gun law strength and homicide rates**, Jason Szkola, Everytown for Gun Safety
- **Predicting crime guns: A machine learning analysis of California firearm transaction records**, Hannah Laqueur, University of California, Davis
- **The impact of police-involved violence on violent crime in Milwaukee, Wisconsin**, Nicholas Meyerson, Johns Hopkins University
- **The impact of mandatory prison sentences for illegal possession of a firearm: The Chicago experience**, David Olson, Loyola University Chicago
- **Predicting violent crime among handgun purchasers in California using handgun purchase trends and criminal histories**, Aaron Shev, University of California, Davis

Concurrent Oral Presentations: Examining gun culture and exploring international rates of firearm injury and death (Erie)

- **The leading causes of death in children and adolescents in Brazil, 2000-2020**, Michelle Degli Esposti, University of Michigan
- **The contribution of firearm mortality to the changes in life expectancy on the northern border of Mexico**, Uriel Lomeli Carrillo, University of Colorado, Boulder
- **Firearm manufacturing and imports in the US and their association to firearm homicides in Central America and the Caribbean, 1991-2019**, Eugenio Weigend Vargas, University of Michigan
- **Understanding characteristics of homicides committed with firearms in Ontario, Canada**, Angelika Zecha, University of Guelph

CONFERENCE SCHEDULE

10:45 a.m. - 12:15 p.m. Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Examining gun culture and exploring international rates of firearm injury and death (Erie)

- **Examining firearm ownership in Florida: Guns provide access to sources of life meaning**, Alice Hawryszkiewicz, University of Oxford
- **Stopping a bad guy with a gun: Differentiating a politics of fear**, Jennifer Hubbert, Lewis & Clark College

12:15 p.m. - 1:00 p.m. Lunch (Riverwalk)

1:00 p.m. - 2:30 p.m. Symposium and Concurrent Oral Presentations

Symposium: Building a sustainable community violence intervention workforce: Using research to support innovation in recruitment, retention, and well-being (Main Ballroom)

- **The Violence Intervention Workers Study (VIeWS): A comparative analysis of community violence intervention workers in Chicago, New York, and Boston**, David Hureau, University at Albany, State University of New York
- **Findings from a comprehensive and participatory needs assessment of CVI staff**, Jordan Whealdon, Institute for Nonviolence Chicago and Adam Pittman, Northwestern University
- **The FLIP Strategy: Training the next generation of CVI professionals**, Angelica D'Souza, Northwestern University

Concurrent Oral Presentations: Examining hospital and emergency department firearm injury data (Sheraton I)

- **Outpatient care disparities in traumatically injured patients discharged to correctional facilities**, Elise Biesboer, Medical College of Wisconsin
- **Violence profiles among young adults presenting to four urban emergency departments**, Jason Goldstick, University of Michigan
- **Firearm flossing behaviors among high-risk emergency department youth and young adults with recent firearm carriage**, Heather Hartman, University of Michigan
- **Emergency department visits for pediatric firearm injuries, 2017-2022: A multicenter study**, Jennifer Hoffman, Ann & Robert H. Lurie Children's Hospital of Chicago
- **Identifying children at risk of firearm injuries using exploratory spatial data analysis of 9-1-1 emergency medical services data in 50 states**, Craig Newgard, Oregon Health & Science University
- **Examining firearm injury intent in New York State (NYS) emergency department and hospitalization data**, Emilia Pawlowski, New York State Department of Health

Concurrent Oral Presentations: Assessing risk and implementing evidence-based solutions to prevent suicide (Part I) (Sheraton III)

- **Investigating clinical and mental health characteristics preceding youth suicide**, Sofia Chaudhary, Emory University; Children's Healthcare of Atlanta
- **Domestic violence and suicide death among individuals released from jail in King County, WA**, Kimberly Dalve, University of Washington
- **Relationships between firearm behaviors and suicide risk in a longitudinal sample**, James West, Uniformed Services University
- **Demographic patterns of Black and White gun ownership and firearm suicide**, David Hemenway, Harvard University
- **"Are you worried that someone in your household is at risk of suicide?": Screening to reduce quick access to firearms in rural and remote Alaska homes**, Lisa Wexler, University of Michigan
- **Families and partners' efforts to reduce firearm access when their loved one is at risk of harming themselves or others**, Jennifer Paruk, Rutgers University

Concurrent Oral Presentations: Exploring the impact of place on firearm injury and prevention (Part I) (Erie)

- **Street construction projects and firearm violence: A natural experiment in New York City**, Andrew Kim, Columbia University

CONFERENCE SCHEDULE

1:00 p.m. - 2:30 p.m. Symposium and Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Exploring the impact of place on firearm injury and prevention (Part I) (Erie)

- **The epidemiology of fatal and nonfatal firearm injuries occurring in gun establishments in the United States, 2015 to 2022**, Alaina Beauchamp, University of Texas Southwestern Medical Center
- **The intersection of physical disinvestment and firearm shootings in Toledo: A spatial case-control analysis**, Emma Gause, Boston University
- **The end of hotspots? Spatial deconcentration of firearm violence in Boston, MA, 2007-2021**, Faizah Shareef, University of California, San Diego
- **Off-premises alcohol outlets and socioeconomic status predict firearm-related injury in Milwaukee, WI**, Carissa Tomas, Medical College of Wisconsin
- **Investigating firearm robbery from an intersectionality perspective: Firearm robbery as an intersectional paradox**, Mudia Uzzi, Johns Hopkins University

2:30 p.m. - 2:45 p.m. Break

2:45 p.m. - 4:15 p.m. Welcome and Opening Keynote (Main Ballroom)

Welcome Ceremony

Sonali Rajan, Teachers College, Columbia University
Society President

Keynote

Desmond Upton Patton, University of Pennsylvania

Firearm harm prevention 2.0: Unlocking the potential and challenges of AI and social media innovations

Closing Thoughts

Rebecca Cunningham, University of Michigan
Society Board Member

4:15 p.m. - 4:30 p.m. Break

4:30 p.m. - 6:00 p.m. Symposium and Concurrent Oral Presentations

Symposium: Psychological and biobehavioral correlates of firearm ownership and use (Main Ballroom)

- **Threat, fear, and the perceived value of specific firearm storage practices in suicide prevention within a sample of firearm-owning military servicemembers**, Michael Anestis, Rutgers University
- **Cognitive processes and firearm ownership factors**, Craig Bryan, The Ohio State University
- **Suicidal ideation in the presence of a firearm: Results of an ecological momentary assessment study**, Craig Bryan, The Ohio State University

Concurrent Oral Presentations: Examining the economic impact and solutions of firearm injury (Sheraton I)

- **Unconditional cash transfer and guaranteed basic income for survivors of firearm violence: Experiences from two pilot studies in urban centers**, Ruth Abaya, University of Pennsylvania
- **State earned income tax credit policies and firearm suicides**, Nichole Asa, University of Washington
- **Bargaining for life: The impact of economic empowerment on intimate partner femicide**, Zainab Hans, University of Michigan
- **Summer youth employment programs for violence prevention: Costs and key components**, Megan O'Toole, Everytown for Gun Safety
- **Using crime victim compensation for structural reparations**, Clarice Robinson, University of Chicago
- **Calculating the costs of gun-related victimizations using integrated data systems**, Anthony Washburn, University of Chicago

CONFERENCE SCHEDULE

4:30 p.m. - 6:00 p.m. Symposium and Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Understanding Extreme Risk Protection Order (ERPO) policies (Sheraton III)

- **Implementation of Extreme Risk Protection Orders in Colorado: Firearm relinquishment and return**, Leslie Barnard, University of Colorado, Denver
- **ERPO data is essential for studying the use and effectiveness of extreme risk laws**, Sarah Burd-Sharps, Everytown for Gun Safety
- **Oregon's Extreme Risk Protection Order law: Utilization and implementation gaps, 2018-2022**, Kathleen Carlson, VA Portland Healthcare System
- **Trends in New York State utilization of Extreme Risk Protection Orders: Examining initial uptake and implementation**, Emma Cornell, Northwell Health Center for Gun Violence Prevention
- **When politics and risk of violence collide: Extreme Risk Protection Orders in Colorado's Second Amendment sanctuary counties**, Christopher Knoepke, University of Colorado, Anschutz
- **Gun talk: Identifying the facilitators and barriers to provider-initiated conversations regarding securing firearms**, Jennifer Necci Dineen, University of Connecticut

Concurrent Oral Presentations: Understanding risk & protective factors (Erie)

- **Perceptions of risks associated with personal firearms on a US military installation**, Makala Carrington, University of Colorado, Anschutz
- **Understanding the clustering of firearm carrying and discharge behaviors using network analysis: Implications for violence risk**, Philip Stallworth, University of Michigan
- **A latent class analysis of firearm possession examining risk and protective factors among emergency department youth and young adult patients**, Heather Hartman, University of Michigan
- **Association between living in homes with handguns and risk of violent death among children**, Erin Holsinger, Stanford University
- **Contextual influences, drug/alcohol use, and assault-related injury among men hospitalized for re-assault by firearm in Baltimore, MD**, Lea Marineau, Johns Hopkins University
- **Predicting risk of firearm injuries in children using national emergency medical services records and publicly available data sources**, Craig Newgard, Oregon Health & Science University

6:00 p.m. - 7:30 p.m. Welcome Reception (Riverwalk)

Light refreshments will be served, cash bar available

[View scientific abstracts](#)

CONFERENCE SCHEDULE

November 2

7:30 a.m. - 8:00 a.m. Breakfast (Riverwalk)

8:00 a.m. - 9:30 a.m. Symposia and Concurrent Oral Presentations

Symposium: Structural and social determinants of firearm violence (Main Ballroom)

- **Racism as a determinant of firearm violence: A scoping review**, Daniel Lee, University of Michigan
- **Housing instability and income inequality affect firearm homicide mortality: A cross-sectional analysis of major US metropolitan areas**, Mallory Loe, Tulane University
- **Getting at the root: The role of structural racism on youth homicide**, Katherine Theall, Tulane University

Symposium: Experiences with handguns among rural adolescents: A call for tailoring firearm injury prevention efforts to rural settings (Sheraton I)

- **Handgun experiences and behaviors among rural adolescents: A convergent mixed methods study**, Elizabeth Weybright, Washington State University
- **Bullying and handgun carrying among youth growing up in rural areas**, Kimberly Dalve, University of Washington
- **Reflections on firearm exposure and experiences among young adults who grew up in rural areas**, Emma Gause, Boston University

Concurrent Oral Presentations: Examination of firearm policies and their effects on firearm injuries (Part I) (Sheraton III)

- **Variance in state mental health firearm prohibition laws: A 50-state analysis**, Deirdre Bowen, Seattle University
- **Firearm hospitalizations and Permit-to-Purchase laws: Longitudinal evaluation of state-level licensure requirement on firearm violence**, Daniel Webster, Johns Hopkins University
- **Armed and dangerous? The effect of concealed carry permitting on gun-related health outcomes**, David Johnson, University of Central Missouri
- **Effects of implementing permissive campus carry laws on rates of major violence at public colleges and universities**, Rose Kagawa, University of California, Davis
- **Understanding the prevalence of Second Amendment sanctuary laws**, Ugonna Okorie, Johns Hopkins University
- **The impact of Massachusetts' Safe and Successful Youth Initiative (SSYI) on reducing urban gun violence**, Trevor Fronius, WestEd Justice & Prevention Research Center

Concurrent Oral Presentations: Understanding community violence: Indicators and best-practices (Erie)

- **Attributes of firearm violence among youth and potential "alternative" non-violent trajectories with similar attributes: Results of formative research**, Mark Edberg, George Washington University
- **Enhancing academic-community partnerships to implement effective firearm injury prevention strategies: A case study in Missouri**, Erin Wright-Kelly, University of Colorado, Anschutz
- **Tracking the temporal dynamics of the proportion of firearm homicide decedents fatally shot in their residential neighborhood**, Suzanne McLone, Boston University
- **A national algorithm to predict firearm assault: The Firearm Violence Vulnerability Index (FVVI)**, Ann Polcari, University of Chicago
- **"Too far gone?": A PAR study of gun-violence prevention workers' most challenging participants**, Peter Simonsson, Temple University

9:30 a.m. - 9:45 a.m. Break

CONFERENCE SCHEDULE

9:45 a.m. - 11:15 a.m. Foundations Panel, Concurrent Oral Presentations and Workshop

Panel: Foundation Funders Panel (Main Ballroom)

Angelina Ruffin (Kaiser Permanente - The Health Alliance for Violence Intervention)
Timothy Daly (The Joyce Foundation)
Jessi LaRose (Missouri Foundation for Health)
Jamie Schenker (The California Wellness Foundation)
Asheley Van Ness (Arnold Ventures)

Concurrent Oral Presentations: Assessing risk and implementing evidence-based solutions to prevent suicide (Part II) (Sheraton I)

- **Lock and protect, reducing access to adolescent means of suicide: An emergency department feasibility cohort pilot study**, Ashley Blanchard, Columbia University
- **Dementia and firearms: Experiences of caregivers enrolled in a national trial**, Mirella Castaneda, University of Colorado Anschutz
- **Survey results from Colorado Gun Shop Project: Firearm business owners, employees and customers**, Sabrina Arredondo Mattson, University of Colorado, Boulder
- **Military spouse and partner views on lethal means safety messaging**, Raiza Deyto, University of Colorado, Anschutz
- **Extending the firearm suicide proxy for household gun ownership**, Megan Kang, Princeton University
- **Self-inflicted and assaultive injuries by firearms treated in a Level I trauma center on the rise following statewide waiting period law repeal**, Jacey Kant, Medical College of Wisconsin

Concurrent Oral Presentations: Exploring firearm violence prevention strategies and firearm ownership behavior (Sheraton III)

- **Reciprocal effects of household firearm ownership on firearm mortality over time**, Denis Agniel, RAND Corporation
- **Piloting of a brief, motivational interviewing-based lethal means safety counseling intervention for primary care settings**, Frances Aunon, VA Connecticut; Yale School of Medicine
- **Lifetime history of firearm and violence exposure and attitudes and behaviors regarding safe storage and open carry: A person-centered analysis**, Jennifer Necci Dineen, University of Connecticut
- **Measuring shootings and other gun violence: A national and local look**, Nicole Johnson, RTI International
- **Fatal and nonfatal firearm injury in the United States, 2019-2020**, Elinore Kaufman, University of Pennsylvania
- **Examining characteristics of firearm homicides that occur within the context of acts of random violence, US, 2009–2020**, Rebecca Wilson, Centers for Disease Control and Prevention

Workshop: A primer for collaborations with criminologists and criminal justice practitioners (Erie)

Jesenia Pizarro, Arizona State University
Beth Huebner, Arizona State University
Stephen Bishopp, Dallas Police Department
Laura Zimmerman, US Department of Homeland Security, Federal Law Enforcement Training Centers

11:15 a.m. - 12:45 p.m. Mentoring Session and Lunch

Mentoring Session + Lunch (Main Ballroom)

The Mentoring Session will be held 11:30 a.m. - 12:30 p.m. Mentees who RSVP'd for the session will find their table numbers written on their badge. Lunch will be provided in the Main Ballroom for those who RSVP'd for the Mentoring Session

Lunch (Riverwalk)

Lunch will be provided in the Riverwalk area for those not attending the Mentoring Session

CONFERENCE SCHEDULE

12:45 p.m. - 2:15 p.m. Federal Funders Panel and Concurrent Oral Presentations

Panel: Federal Funders Panel (Main Ballroom)

Jim Mercy, Center for Disease Control
Leah Gilbert, National Institute for Child Health and Human Development
Crystal Barksdale, National Institute on Minority Health and Health Disparities
Janine Zweig, National Institute of Justice
Dara Blachman-Demner, National Institutes of Health
Shalanda Bynum, National Institute of Nursing Research

Concurrent Oral Presentations: Exploring firearm access, carriage, and storage (Sheraton I)

- **Firearm carrying and storage practices vary based on recency of purchase: Results from nationally representative surveys of Black and AI/AN adults**, Michael Anestis, Rutgers University
- **Pilot implementation of a hospital security program for promoting secure storage of firearms**, M. Kit Delgado, University of Pennsylvania
- **Firearm safety attitudes and beliefs among rural firearm owners with children**, Tayla Smith, University of Michigan
- **Using panel surveys to collect data on firearm storage safety and practices**, Norah Friar, Centers for Disease Control and Prevention
- **Older adult firearm owners with early signs of cognitive impairment: Development of a primary care decision support tool to improve firearm safety**, Laura Prater, University of Washington
- **A good neighbor with a gun? Experiments on preferences for social proximity and interaction**, Justin Sola, University of California, Irvine

Concurrent Oral Presentations: Vicarious trauma and intimate partner violence: Understanding interventions (Sheraton III)

- **From vicarious trauma to trauma-informed methodologies: Preparing research teams for the study of firearm-related harms**, Millan AbiNader, University of Pennsylvania
- **Suicide and intimate partner violence among US youth, 2014-2018**, Laurie Graham, University of Maryland
- **The role of IPV in firearm suicide: A cross-sectional study using natural language processing and machine learning**, Julie Kafka, University of Washington
- **Silent suffering: Understanding the experiences of Black caregivers of violently injured men**, Nathan Aguilar, Columbia University
- **Identifying early life experiences and community resources in Philadelphia, PA that shape firearm carriage, criminal legal interactions, and violence**, Sara Jacoby, University of Pennsylvania
- **Firearm threat among community women experiencing intimate partner violence: What day-level factors increase risk?**, Tami Sullivan, Yale University

Concurrent Oral Presentations: Assessing impact of communications around firearm injury prevention (Erie)

- **Firearm violence prevention through a communication and partnership lens**, Jenny Dills, Centers for Disease Control and Prevention
- **Preferences for firearm safety messaging among firearm-owning parents and caregivers: An audience-centered perspective**, Mike Garcia, The University of Texas
- **Data listening sessions: A tool for community-based participatory research design and dissemination**, Matthew Kutcher, University of Mississippi
- **Does the messenger matter? A survey experiment to understand citizen support for secure storage policy in America**, Kerri Raissian, University of Connecticut
- **Activating gun owners for gun safety**, Devora Rogers, Alter Agents
- **Community awareness of acoustic gunshot detection systems in Washington, D.C.**, Jesus Trevino, The George Washington University

CONFERENCE SCHEDULE

2:15 p.m. - 2:30 p.m. Break

2:30 p.m. - 4:00 p.m. Symposia and Concurrent Oral Presentations

Symposium: Priorities for firearm research after Bruen (Main Ballroom)

- **Systematic and qualitative analysis of Second Amendment opinions after Bruen**, Eric Ruben, Southern Methodist University
- **Factors associated with trial court decisions deeming firearm regulations unconstitutional: An empirical analysis of post-Bruen Second Amendment opinions**, Rosanna Smart, RAND Corporation
- **Firearm research priorities after Bruen: The perspective of experts**, Ali Rowhani-Rahbar, University of Washington

Symposium: Mass shootings vs the other 97% of firearm deaths: Findings from the Northwestern Juvenile Project (Sheraton I)

- **Victims as well as perpetrators: Firearm injury and death 25 years after juvenile detention**, Linda Teplin, Northwestern University
- **Firearm involvement of parents and their adolescent children: Intergenerational patterns of firearm violence**, Nicholas Meyerson, Johns Hopkins University
- **"If you go out, you are threatened by guns...": Teens in high-risk communities share their perspectives**, Sara Thomas, Northwestern University

Concurrent Oral Presentations: Understanding and addressing disparities (Part II) (Sheraton III)

- **Firearm violence exposure and firearm access and use among Black and AI/AN adults: Results from two nationally representative surveys**, Michael Anestis, Rutgers University
- **Racial differences in youth gun ownership, carrying, and use: The roles of community violence exposure and collective efficacy**, Jasmine Coleman, University of South Alabama
- **Equity considerations with the implementation of Extreme Risk Protection Orders: Lessons learned from Domestic Violence Protection Orders**, Kelsey Conrick, University of Washington
- **Firearm violence exposure and health in two nationally representative samples of Black and American Indian/Alaska Native adults**, Daniel Semenza, Rutgers University
- **Toward a firearms justice framework**, Michael Ulrich, Boston University
- **Racial capitalism and firearm violence: Developing a theoretical framework for firearm violence research examining the influence of racism**, Mudia Uzzi, Johns Hopkins University

Concurrent Oral Presentations: Examining firearm injury risk and prevention strategies for military members and their families (Erie)

- **Firearm injury prevention among military service members: Strategies for military-civilian partnerships**, Emmy Betz, University of Colorado, Anschutz
- **Reducing access to firearms: Secure storage preferences and practices of service members**, Kaitlyn Friedman, University of Colorado, Anschutz
- **Unintentional firearm injuries among Veterans: A mixed-methods approach to understand frequency and context**, Megan Lafferty, VA Portland Healthcare System
- **Characteristics, circumstances, and treatment of gun injuries among rural- versus urban-residing Veterans who used VA healthcare nationally, 2010–2019**, AnnaMarie O'Neill, VA Portland Healthcare System
- **The association between state firearm characteristics and suicide risk for Veteran and non-Veteran residents, 2002-2019**, Terry Schell, RAND Corporation
- **"It's a heavy subject... I don't even know where to start": Opportunities to support caregivers of US Veterans in lethal means safety conversations**, Gala True, Department of Veterans Affairs

4:00 p.m. - 4:15 p.m. Break

CONFERENCE SCHEDULE

4:15 p.m. - 5:45 p.m. Symposium and Concurrent Oral Presentations

Symposium: Establishing a community-academic research collaborative: The Community Firearm Violence Prevention Network (Main Ballroom)

- **Greater than the sum of its parts: Fulfilling the NIH's vision for a community firearm violence prevention network**, Patrick Carter, University of Michigan
- **Advancing the science: Harmonizing data between network projects**, Rebecca Sokol, University of Michigan
- **Moving beyond partnerships: Building a charter for conducting community engaged research**, Michael Wallace, George Washington University

Concurrent Oral Presentations: Examination of firearm policies and their effects on firearm injuries (Part II) (Sheraton I)

- **Firearm transactions and background checks in Missouri: Frequency and associated factors**, Eugenio Weigend Vargas, University of Michigan
- **State firearm legislation and first-time youth gun carrying in the United States**, Beidi Dong, George Mason University
- **Extreme Risk Protection Orders in Colorado: Law enforcement vs other petitions**, Megan McCarthy, University of Colorado, Aurora
- **The impact of Permit-to-Purchase laws on types of firearms used in youth firearm suicide**, Nicholas Meyerson, Johns Hopkins University
- **Comprehensive background check policies' effects on county-level firearm homicide: A controlled interrupted time-series analyses in 4 states, 2000-2019**, Julia Schleimer, University of Washington
- **Social and policy characteristics associated with injurious shootings by police in US counties: A multilevel analysis, 2015-2020**, Julie Ward, Vanderbilt University

Concurrent Oral Presentations: Discussing innovations in firearm research in varied populations (Sheraton III)

- **Exploring firearm injuries through data linkage**, Lauren Draftz, Washington State Department of Health
- **Latent class analysis of respondents to Extreme Risk Protection Orders in six states**, April Zeoli, University of Michigan
- **Development of a statewide near-real-time system for firearm injury surveillance in Michigan**, Keara Sullivan, University of Michigan
- **Network analysis of risk factors for firearm violence: Baseline results from Project SPARK**, Jason Goldstick, University of Michigan
- **Las Vegas Cardiff Violence Prevention Program**, Kyle Henson, Las Vegas Cardiff Violence Prevention Program
- **Evaluation of a nowcasting model for predicting weekly national firearm homicide deaths during a period of rapid increase in 2020**, Steven Sumner, Centers for Disease Control and Prevention

Concurrent Oral Presentations: Examining hospital-based violence intervention programs (Erie)

- **"Protect & provide": Perceptions of manhood and masculinities among disabled violently injured black men in a hospital violence intervention program**, Nazsa Baker, New Jersey Gun Violence Research Center
- **Pediatric injury and post-injury recovery: Examining recovery needs and HVIP implementation for firearm- vs. non-firearm-injured patients**, Hillary Kapa, Children's Hospital of Philadelphia
- **Assessing reinjury outcomes among participants of a region-wide hospital-based violence intervention program: A case-control study**, Kristen Mueller, Washington University in St. Louis
- **"It gave my confidence back": Youth and family-centered outcomes of a pediatric hospital-based violence intervention program**, Rachel Myers, University of Pennsylvania, Children's Hospital of Philadelphia
- **Barriers to implementing firearm violence prevention initiatives in healthcare settings**, Laura Seewald, University of Michigan
- **"It is nice, but it can't keep me safe": The perspectives of Black men who survived gunshot wounds on the effectiveness of violence prevention**, William Wical, University of Maryland, College Park

5:45 p.m. - 6:00 p.m. Break

6:00 p.m. - 6:45 p.m. Poster Session 1 (Riverwalk)

CONFERENCE SCHEDULE

November 3

7:30 a.m. - 8:00 a.m. Breakfast (Riverwalk)

8:00 a.m. - 9:30 a.m. Symposium and Concurrent Oral Presentations

Symposium: Advances in the measurement of CVI impact: Evidence from three evaluations in Chicago (Main Ballroom)

- **Evaluating impact: Applications and challenges of quasi-experimental research designs for assessing the effect of street outreach on reducing gun violence**, Susan Burtner, Northwestern University
- **Identifying the effects of changing social ties on perceived safety among high-risk male participants in a community violence intervention program**, Dallas Wright, Northwestern University
- **Building peace through gang truces: An evaluation of the Flatlining Violence Inspires Peace (FLIP) Strategy**, Marisa Ross, Northwestern University

Concurrent Oral Presentations: Examination of firearm policies and their effects on firearm injuries (Part III) (Sheraton I)

- **Assessing the relationship between Permit-to-Purchase law changes and weapons arrest rates: A longitudinal study from 1981-2019**, Daniel Webster, Johns Hopkins University
- **Effects of firearm laws controlling for demographically-specific information on firearm ownership**, Andrew Morral, RAND Corporation
- **The effects of permitless concealed carry on gun violence and victimization**, Susan Parker, Northeastern University
- **State expansion of Supplemental Nutrition Assistance Program eligibility and rates of firearm-involved deaths in the United States**, Rebeccah Sokol, University of Michigan
- **The perils of Bruen for gender-based violence**, Michael Ulrich, Boston University
- **A social problem analysis of the 1993 Brady bill & the 2022 Bipartisan Safer Communities Act (BSCA)**, Devon Ziminski, Rutgers University

Concurrent Oral Presentations: Examining school-based violence prevention strategies (Sheraton III)

- **State by state legislative action to the Sandy Hook mass shooting and analysis of subsequent legislative reaction**, Deirdre Bowen, Seattle University
- **School lockdowns and student mental health in the United States**, Keith Hullenaar, University of Washington
- **'We remember them': A mixed methods study of posttraumatic growth, collective efficacy, and agency among survivors of mass violence in California**, Monte-Angel Richardson, University of Toronto
- **Posttraumatic change among survivors of mass public shootings: The role of the event impact and social acknowledgement**, Jaclyn Schildkraut, Rockefeller Institute of Government
- **Is it possible to detect true effects of firearm policies on the risk for mass shootings using common statistical methods?**, Rosanna Smart, RAND Corporation
- **Firearm-related tips in a statewide school anonymous reporting system: Prevalence, urgency, and form of violence using natural language processing**, Elyse Thulin, University of Michigan

9:30 a.m. - 9:45 a.m. Break

9:45 a.m. - 11:15 a.m. Symposium and Concurrent Oral Presentations

Symposium: Supporting the frontline through community healing: Advancing science on violence intervention outreach and trauma exposure (Main Ballroom)

- **CVI programs and public safety coalition building**, Kathryn Bocanegra, University of Illinois, Chicago and Darren Faulkner, KC Common Good
- **Trauma recovery and CVI worker wellness**, Marvia Jones, Kansas City Public Health Department and Rashid Junaid, AIM4Peace Kansas City
- **Violence reduction, racial reconciliation, and community healing**, Jordan Costa, Giffords Center for Violence Intervention and Vincent Ortega, Jackson County COMBAT

CONFERENCE SCHEDULE

9:45 a.m. - 11:15 a.m. Symposium and Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Assessing risk and implementing evidence-based solutions to prevent suicide (Part III) (Sheraton I)

- **The association of suicide risk factors with firearm ownership and storage practices in Colorado**, Leslie Barnard, University of Colorado, Denver
- **Promoting secure firearm storage in pediatric primary care: Results from an effectiveness-implementation trial of the S.A.F.E. firearm program**, Rinad Beidas, Northwestern University
- **Firearm suicides among young Americans**, Tannuja Rozario, Everytown for Gun Safety
- **Firearm access and risk mitigation among Veterans at elevated risk for suicide who seek emergency services**, Joseph Simonetti, University of Colorado, Anschutz
- **Firearm access is associated with the capability for suicide and suicide ideation**, Jasmine Coleman, University of Tennessee
- **Mobility problems preceding female firearm suicide: A descriptive analysis using the national violent death reporting system**, Julian Takagi-Stewart, Drexel University

Concurrent Oral Presentations: Exploring neighborhood characteristics relating to firearm injury (Sheraton III)

- **Substance misuse, housing instability, and positive symptoms of psychosis as documented in Extreme Risk Protection Order (ERPO) petitions in Colorado**, Christopher Knoepke, University of Colorado, Anschutz
- **Results from a pilot study to improve the readability of credible messenger documentation notes**, Christopher St. Vil, University of Buffalo
- **Independent and joint impacts of alcohol and cannabis outlet densities on firearm assault injuries**, Ellicott Matthay, New York University
- **Housing stability and firearm violence: A natural experiment utilizing COVID-19 eviction moratoria in the United States**, Christina Mehranbod, Columbia University
- **The association between Second Amendment sanctuaries and firearm death in the United States**, Paul Keeping, University of California, Davis
- **The contribution of Adverse Childhood Experiences (ACEs), injury intent, and neighborhood characteristics to psychological outcomes in injured Black men**, Terry Richmond, University of Pennsylvania

11:15 a.m. - 12:45 p.m. Lunch and Poster Session 2 (Riverwalk)

Poster Session 2 will take place 11:45 a.m. - 12:30 p.m.

12:45 p.m. - 2:15 p.m. Symposium and Concurrent Oral Presentations

Symposium: Advancing equitable research on community violence intervention: Challenges, best practices, and implications for policy and practice (Main Ballroom)

- **Equity in CVI research: Best practices and strategies to minimize harm, improve wellbeing in Black and Brown communities, and address the complexity of violence through an intersectional lens**, Shani Buggs, University of California, Davis
- **Advance Peace: Evaluating a community-based approach to reducing gun violence**, Jason Corburn, University of California, Berkeley
- **Evaluating and enhancing community violence intervention effectiveness in Washington, D.C.**, Joseph Richardson, University of Maryland, College Park

Concurrent Oral Presentations: Exploring the impact of place on firearm injury and prevention (Part II) (Sheraton I)

- **Firearm related injuries and public housing in New York City children**, Nina Agrawal, City University of New York
- **US heat wave characteristics and firearm mortality**, Sarina Alavi, Columbia University
- **Heatwaves and firearm violence in 4 U.S. cities**, Brady Bushover, Columbia University
- **Historical redlining policies' effects on firearm violence today**, Eric Flegler, Boston Children's Hospital

CONFERENCE SCHEDULE

12:45 p.m. - 2:15 p.m. Symposium and Concurrent Oral Presentations Continued

Concurrent Oral Presentations: Exploring the impact of place on firearm injury and prevention (Part II) (Sheraton I)

- **Unmasking the confluence: Evaluating the joint effects of COVID-19 and historic redlining on firearm violence**, Zainab Hans, University of Michigan
- **Neighborhood predictors of illegal dumping: The association between illegal dumping, community factors and firearm violence**, Bernadette Hohl, University of Pennsylvania

Concurrent Oral Presentations: Firearm injury prevention among adolescent and pediatric populations (Sheraton III)

- **Impacts of exposure to deadly gun violence on adolescents' sleep duration and quality**, Amanda Aubel, University of California, Davis
- **Violent experiences, mental health, and patterns of firearm ownership/access in childhood and young adulthood**, Josie Caves Sivaraman, RTI International
- **The REVEAL Study: Using brain imaging to research the effects of gun violence exposure on attention and learning**, Karen Froud, Teachers College, Columbia University
- **A national study of firearm use and safety training of rural adolescents**, Jamie Koopman, Franciscan Health Olympia Fields
- **Support for age-related gun policies**, Rebecca Valek, Johns Hopkins University
- **Unintentional firearm injury deaths among US children aged 0–17 years, 2003–2020**, Rebecca Wilson, Centers for Disease Control and Prevention

2:15 p.m. - 2:30 p.m. Break

2:30 p.m. - 4:00 p.m. Closing Ceremony and Awards (Main Ballroom)

Closing Ceremony

Jesenia Pizarro, Arizona State University
Society Secretary

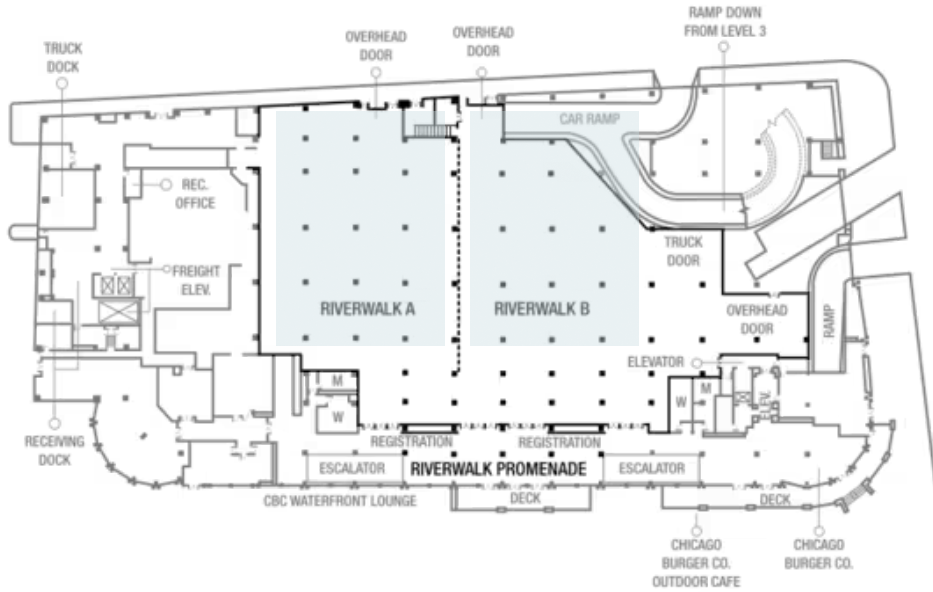

Awards

Ali Rowhani-Rahbar, University of Washington
Society Board Member, Awards Committee Co-Chair

Jo Richardson, University of Maryland
Society Board Member, Awards Committee Co-Chair

POSTER SESSION 1

November 2 / 6:00 - 6:45 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
1	Understanding the extent to which fatal and non-fatal firearm injuries impact Illinois populations of similar urbanicity	Megan Koch	Illinois Department of Public Health
2	Daily fluctuations in anxiety and fear among US adults who carry firearms	Craig Bryan	The Ohio State University
3	Distance between firearm injuries and residential address: Patient characteristics and outcomes	Kara Kallies	Medical College of Wisconsin
4	Facilitators and barriers to the adaptation of the cure violence model in schools: A case study approach	Sara Solomon	University of Pennsylvania
5	Mass shootings: Hate, political extremism and access to firearms	Wendy Cukier	Toronto Metropolitan University
6	Characterization of mass shootings by state, 2014-2022	Leslie Barnard	University of Colorado Denver
7	Reporting on guns in schools: A content analysis of newspaper discussions of firearm incidents in Michigan K-12 schools	Victor Medina Del Toro	University of Michigan
8	A crowdsourced approach to compare perceptions of trend in visualizations of mass shooting incidents across different data sources	Poorna Talkad Sukumar	New York University
9	Formative reasons of state-to-state influences of firearm acquisition in the United States	Xu Wang	Northeastern University
10	Community perspectives on firearm safety communication during pediatric primary care visits	Michelle March	Cincinnati Children's Hospital Medical Center
11	Circumstances surrounding pediatric firearm injury in New York City	Jennifer Grad	NYU / NYC Health + Hospitals/Bellevue
12	Examining demographic trends in North Carolina EMS firearm injury data / Evaluating a firearm injury definition for EMS data	Nicole Snyder	University of North Carolina at Chapel Hill
13	Gun laws matter: The impact of varying legislation on unintentional firearm hospitalizations	Gary Zhang	East Carolina University
14	The big idea: Innovation forums as a community platform for firearm injury prevention	Damaris Ortiz	Indiana University
15	Firearm violence: Can medical students "Stop the Bleed?"	Jasmanpreet Kaur	Michigan State University

POSTER SESSION 1

November 2 / 6:00 - 6:45 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
16	Centering female gunshot survivorship through qualitative research and expressive art	Nathan Aguilar	Columbia University
17	Assessing social work practitioners' attention to firearm violence	Patricia Logan-Greene	University of Buffalo
18	Emergency Medical Services (EMS) clinicians' views on EMS-delivered interventions to promote secure firearm storage practices	Ian Stanley	University of Colorado Anschutz
19	Firearm safety and policy attitudes among midwestern healthcare providers	Lynn Massey	University of Michigan
20	Assessing hospital based violence intervention programs: A qualitative study of firearm injury survivors and violence prevention program faculty	Derek Lumbard	Hennepin Healthcare
21	Creation of a multi-disciplinary clinic to address the unique needs of firearm violence survivors	Colleen Trevino	Medical College of Wisconsin
22	Assessing a choice-based interactionist framework for understanding differences in situational risk factors for gun violence victimization	Brendan Lantz	Florida State University
23	Project Safe Neighborhoods (PSN): An organizing framework for partnerships for firearms violence prevention and intervention in North Carolina	Stacy Sechrist	RTI International
24	A qualitative scoping review of attitudes, behaviors, causes, and consequences of community firearm violence	Colleen Walsh	Virginia Commonwealth University
25	Community greenspace protects against firearm-involved crime in Indianapolis	Karl Selm	Keep Indianapolis Beautiful Inc
26	Residential segregation and youth firearm violence: Downstream consequences	Daniel Lee	University of Michigan
27	Urban geography of firearm injuries: An analysis of victim residences and injury locations in Philadelphia, PA	Evelyn Gorey	City of Philadelphia Department of Public Health
28	Developing community-based youth firearm violence intervention evaluation measures through a researcher-community partnership	Julia Schleimer	University of Washington
29	What are community groups doing to prevent and respond to shootings? Findings from Project CLEARs	Carlee Ruiz	RTI International
30	Homicide and shooting reviews: A data to action public safety and public health response to firearm violence	Mallory O'Brien	Johns Hopkins University

POSTER SESSION 1

November 2 / 6:00 - 6:45 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
31	National Institutes of Health (NIH): Portfolio analysis of homicide and firearm violence prevention research and opportunities for future research	Dara Blachman-Demner	National Institutes of Health (NIH)
32	Findings of the Philadelphia Firearm Homicide Review Team: An experiment in integrated public health and criminal justice data	Ruth Abaya	University of Pennsylvania
33	Firearm homicides among Hispanics and White non-Hispanics: Measuring disparities	Eugenio Weigend Vargas	University of Michigan
34	Integrating language justice and culturally responsive research practices to the study of intimate partner firearm violence	Chiara Cooper	University of Michigan
35	Understanding the use of firearms and other weapons in the perpetration of nonfatal intimate partner violence in North Carolina	Allyson Corbo	RTI International
36	Firearms and post-separation abuse: Providing context behind the data on firearms and intimate partner violence	Kathryn Spearman	Johns Hopkins University
37	Domestic violence restraining order firearm laws and firearm fatalities among children and teens, 1999 to 2020	Karissa Pelletier	University of Michigan
38	Attitude to predict unsafe storage practices among Missourians who own firearms for protection	Haley Crimmins	University of Michigan
39	Law enforcement and firearms: Understanding firearm ownership and storage habits	Allie Bond	Rutgers University
40	A comparison of service member and civilian experiences with cable locks: Implications for secure storage messaging	Shelby Bandel	Rutgers University
41	Purchase motivations and policy opinions of new gun owners	Rebecca Valek	Johns Hopkins University
42	The roles of governors in state firearm policy environments, 2020-2022	Diana Silver	New York University
43	How have firearm laws changed in outlier states with unexpected decreases or increases in firearm homicide, 1990-2019?	Michelle Degli Esposti	University of Michigan
44	Extreme Risk Protective Order implementation in Anne Arundel County, MD	Isabella Young	Anne Arundel County Department of Health
45	Examining firearm buyback program participation within the context of the Health Belief Model	Liz Grimes	California State University, Long Beach

POSTER SESSION 1

November 2 / 6:00 - 6:45 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
46	How can governments invest in safety? A scoping review of government spending and firearm violence in the United States	Julia Lund	University of California, Davis
47	The current state and federal firearm policy landscapes	Lois Lee	Boston Children's Hospital
48	Reasons for gun ownership among new and prior gun owners	Julie Ward	Vanderbilt University
49	Firearm-related mortality among child welfare-involved youth: Using surveillance data to inform prevention strategies	Christina Magness	University of Michigan
50	A national study of rural youth's exposure to firearm violence and attitudes towards firearm safety measures	Megan Sinik	University of Iowa
51	A geographic analysis of pediatric firearm deaths and state policies on social, emotional, and academic development	Justin Hatchimonji	University of Pennsylvania
52	Changes in firearm-related self-harm deaths and their association with state-level firearm laws: Analysis of US states from 1990 to 2019	Sid Zadey	Columbia University
53	Engaging in Lethal Means Safety (ELMS): An evaluation of a suicide prevention means safety training program for mental health first responders	Chris Collins	Salem State University
54	The values, beliefs, and meaning of firearms and firearm ownership among post-9/11-era current and former Army service members	Jayna Mocerri-Brooks	Rutgers University
55	The role of financial incentives in promoting secure firearm storage among Veterans with elevated suicide risk	Gabriela Khazanov	Corporal Michael J Crescenz VA Medical Center in Philadelphia
56	Using multi-stakeholder engagement to develop an educational workshop empowering loved ones to promote firearm safety for suicide prevention	Gabriela Khazanov	Corporal Michael J Crescenz VA Medical Center in Philadelphia
57	Alaska Native adult and youth perceptions of youth firearm access	Avery Moje	University of Colorado Boulder

POSTER SESSION 2

November 3 / 11:45 a.m. - 12:30 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
1	Save us: The Robb Elementary School shooting forces Southwest Texas Junior College to improve security measures	Dalia Vazquez	Southwest Texas Junior College
2	Negligent firearm businesses and their proximity to K-12 schools across the United States: Evaluating risk to school-based firearm violence	Paul Reeping	University of California, Davis
3	Mass shootings in Europe: Policy implications of differing firearm acquisition patterns	Nils Duquet	Flemish Peace Institute
4	(Artificial) eyes in the sky and ears to the ground? Public attitudes toward expanding surveillance technologies to reduce gun violence	Magic Wade	University of Illinois Springfield
5	Instrumentality and technological determinism as related to firearms	Christopher Strain	Florida Atlantic University
6	Women's role in crime: Evaluating the 5K motion video as an educational resource	Pina Violano	Quinnipiac University
7	Impact of the transition to the National Incident-Based Reporting System on 2021 gun violence trends	Terra Wiens	Violence Policy Center
8	Factors that make shootings hard (or easy) to solve: Findings from the National Case Closed Project	Nicole Johnson	RTI International
9	Preliminary uptake of universal screening for firearm injury risk among pediatric surgical trauma patients	Emma Cornell	Northwell Health Center for Gun Violence Prevention
10	Usability testing of a virtual reality curriculum to deliberately practice firearm safety counseling	Michelle March	Cincinnati Children's Hospital Medical Center
11	Provider perspectives on addressing firearm safety with older adults in primary care	Rachel Ross	University of Washington
12	"Keep your activism out of the exam room": Healthcare providers' opinions about firearm safety conversations on a Medscape message board.	Christopher Knoepke	University of Colorado Anschutz
13	Piloting a gun violence prevention training curriculum for school nurses and counselors in New Jersey and Massachusetts	Amy Kaplan	Massachusetts General Hospital Gun Violence Prevention Center
14	Long-term outcomes following discharges against medical advice after firearm injury	Ted Chung	Hennepin Healthcare
15	A preliminary examination of mental healthcare providers' firearm access screening practices in the US	Taylor Rodriguez	Rutgers University

POSTER SESSION 2

November 3 / 11:45 a.m. - 12:30 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
16	Characteristics of youth seeking emergency department treatment for an assault injury	Heather Hartman	University of Michigan
17	Predictors of repeat pediatric firearm injury in St. Louis: A 10-year retrospective cohort analysis	Kristen Mueller	Washington University at St. Louis
18	Changing medical education: Firearm violence prevention in pediatric and emergency medicine residency programs	Jasmanpreet Kaur	Michigan State University
19	Care management needs among youth with recent firearm carriage enrolled in a violence prevention program	Lynn Massey	University of Michigan
20	Clinicians and firearms: A curriculum on firearm injury prevention in healthcare	Andrew Lithen	Quillen College of Medicine
21	The role of the post-discharge care team in caring for gun violence survivors	Rebecca Laszkiewicz	Medical College of Wisconsin
22	Preventing disparities in firearm-related harm: Preferred roles of clinical social work practitioners	Kelsey Conrick	University of Washington
23	Examining predictors of firearm-related victimization	Meagan Docherty	Bowling Green State University
24	Towards a better understanding of gun violence in the EU: Possibilities and limitations of using Artificial Intelligence to identify gun violence.	Astrid De Schutter	Flemish Peace Institute
25	Online communities and gun ownership: A thematic analysis of r/Firearms	Karissa Pelletier	University of Michigan
26	Local public health approach to firearm-related death surveillance	Deanna Price	Washtenaw County Health Department
27	Toward the development of firearm safety communication interventions: Insights from firearm owning parents	Mike Garcia	The University of Texas Health Science Center
28	Firearm injuries differently affect homeless and undocumented trauma patient populations	Melissa Kovacs	Chandler Regional Medical Center
29	An investigation into the design and implementation of a firearm safety mechanism for minimizing human errors	Masato Nakamura	New York City College of Technology (City Tech)

POSTER SESSION 2

November 3 / 11:45 a.m. - 12:30 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
30	Firearm related trauma experiences among recent adult Latinx immigrants: Findings from a study at the US southern border	Laura Vargas	University of Colorado Anschutz
31	Local experts on what could reduce disparities in firearm violence: A qualitative examination in Erie County, New York	Patricia Logan-Greene	University of Buffalo
32	Why is the trigger pulled? Youth perceptions of the causes of firearm violence in Washington, D.C.	Laney Rupp	University of Michigan
33	Towards the development of a Cure Violence implementation research logic model: Gaps and opportunities	Sara Solomon	University of Pennsylvania
34	Phase 1 evaluation of the community component of 414LIFE - Milwaukee's community gun violence prevention and intervention program	Amber Brandolino	Medical College of Wisconsin
35	Implementing a community-based advocacy and support program for survivors of firearm injury	Lauren Magee	Indiana University, Indianapolis
36	Firearm homicides of US children and the role of intimate partner violence, 2003–2020	Rebecca Wilson	Centers for Disease Control and Prevention
37	Perceived impact of living with an abuser with firearm ownership: Barriers to addressing threats to safety and recommendations for practitioners	Bushra Sabri	Johns Hopkins University
38	The double-edged sword of police shootings – The effect of Black Lives Matter on reporting of intimate partner violence crimes	Zainab Hans	University of Michigan
39	Using implementation science to bring firearm safety education and gun lock distribution to the pediatric intensive care unit	Anireddy Reddy	Children's Hospital of Philadelphia
40	Library gun lock distribution program in Anne Arundel County, MD	Isabella Young	Anne Arundel County Department of Health
41	Exploring safe storage beliefs of handgun owners in the United States: A Theory of Planned Behavior application	Pranav Kapoor	Indiana University Bloomington
42	The impact of permit-to-purchase laws on juvenile weapons arrest rates stratified by race and sex	Liz Wagner	Johns Hopkins University
43	Differences in support for gun policy by voting behaviors	Cassandra Crifasi	Johns Hopkins University
44	From the local gun store to the state capitol: Participatory action research as the cornerstone of growing and sustaining an out-of-home firearm storage network	Ronell Day	Department of Veterans Affairs

POSTER SESSION 2

November 3 / 11:45 a.m. - 12:30 p.m. / Riverwalk

Poster #	Abstract Title	Name	Affiliation
45	A national study of firearm presence and storage practices in rural adolescent homes	Benjamin Linden	University of Iowa
46	Violence begets violence: A qualitative study on the long-term psychosocial sequelae of firearm injury in adolescence and young adulthood	Annalyn DeMello	The University of Texas
47	Using machine learning to understand firearm-related crisis texts	Anna Yaros	RTI International
48	Talking with patients about firearms: Do pharmacists, dentists, physical therapists, and other allied health professionals have a role?	Anne Massey	University of Washington
49	Cross-sectional analysis of the Colorado Gun Shop Project evaluation: Assessing readiness in firearm retailers and firearm-related businesses	Stesha Peacock	University of Colorado
50	Firearm use and safety concerns among caregivers of community-dwelling US adults with ADRD and firearm access: A qualitative study	Kayla Meza	Colorado University at Anschutz
51	Peer Engagement and Exploration of Responsibility and Safety (PEERS): Development of a peer-delivered lethal means counseling intervention for firearm owning Veterans	Claire Houtsma	South Central Mental Illness Research, Education and Clinical Center
52	Firearm ownership, usage and storage within the Michigan Army National Guard	Amanda Price	University of Michigan
53	Associations between individual and area level factors and firearm-related suicide among Veterans	Robert Bossarte	University of South Florida
54	Perception of safety, reasons for firearm ownership and unsafe storage practices: Opportunities for suicide prevention in US Army Servicemembers	Catherine Dempsey	Henry Jackson Foundation for the Advancement of Military Medicine
55	Policy and advocacy in adversarial times: Gains made in Texas	Sandra McKay	University of Texas Health Science Center at Houston
56	Evaluating New Haven's PRESS Program, a collaborative approach to reducing gun violence	Dijonee Talley	City of New Haven

AGENDA AT A GLANCE

Wednesday, November 1

9:00 a.m. - 10:30 a.m. Workshops and Oral Presentations

Workshop: ERPO Main Ballroom	Workshop: Participatory Methods Sheraton I	Workshop: Data Systems Sheraton III	Oral Session: Healthcare Erie
---------------------------------	---	--	----------------------------------

10:30 a.m. - 10:45 a.m. BREAK

10:45 a.m. - 12:15 p.m. Oral Presentations

Oral Session: Intimate Partner Violence Main Ballroom	Oral Session: Disparities I Sheraton I	Oral Session: Criminology Sheraton III	Oral Session: Internat. & Culture Erie
--	---	---	---

12:15 p.m. - 1:00 p.m. LUNCH - Riverwalk

1:00 p.m. - 2:30 p.m. Symposium and Oral Presentations

Symposium: CV Workforce Main Ballroom	Oral Session: Hospitals Sheraton I	Oral Session: Suicide I Sheraton III	Oral Session: Place-Based I Erie
--	---------------------------------------	---	-------------------------------------

2:30 p.m. - 2:45 p.m. BREAK

2:45 p.m. - 4:15 p.m. Welcome and Keynote - Main Ballroom

4:15 p.m. - 4:30 p.m. BREAK

4:30 p.m. - 6:00 p.m. Symposium and Oral Presentations

Symposium: Psychological & Biobehavioral Main Ballroom	Oral Session: Economics Sheraton I	Oral Session: ERPOs Sheraton III	Oral Session: Risk Erie
---	---------------------------------------	-------------------------------------	----------------------------

6:00 p.m. - 7:30 p.m. Welcome Reception - Riverwalk

Thursday, November 2

8:00 a.m. - 9:30 a.m. Symposia and Oral Presentations

Symposia: Structural & Social Firearm Main Ballroom	Symposia: Rural Adolescents Sheraton I	Oral Session: Policy I Sheraton III	Oral Session: Community Violence Erie
--	---	--	--

9:30 a.m. - 9:45 a.m. BREAK

9:45 a.m. - 11:15 a.m. Foundations Panel, Oral Presentations and Workshop

Foundations Panel Main Ballroom	Oral Session: Suicide II Sheraton I	Oral Session: Ownership Sheraton III	Workshop: Criminology Erie
------------------------------------	--	---	-------------------------------

11:15 a.m. - 12:45 p.m. Mentoring Session and Lunch - Main Ballroom and Riverwalk

Mentoring Session + Lunch Main Ballroom	Lunch Riverwalk
--	--------------------

12:45 p.m. - 2:15 p.m. Federal Funders Panel and Oral Presentations

Federal Funders Panel Main Ballroom	Oral Session: Safe Storage Sheraton I	Oral Session: IPV & Vicarious Trauma Sheraton III	Oral Session: Communications Erie
--	--	--	--------------------------------------

2:15 p.m. - 2:30 p.m. BREAK

2:30 p.m. - 4:00 p.m. Symposia and Oral Presentations

Symposia: Bruen Main Ballroom	Symposia: Mass Shootings Sheraton I	Oral Session: Disparities II Sheraton III	Oral Session: Military/Veterans Erie
----------------------------------	--	--	---

4:00 p.m. - 4:15 p.m. BREAK

4:15 p.m. - 5:45 p.m. Symposium and Oral Presentations

Symposium: Community/Academic Res. Main Ballroom	Oral Session: Policy II Sheraton I	Oral Session: Innovation Sheraton III	Oral Session: HVIPs Erie
---	---------------------------------------	--	-----------------------------

5:45 p.m. - 6:00 p.m. BREAK

6:00 p.m. - 6:45 p.m. Poster Session 1 - Riverwalk

Friday, November 3

8:00 a.m. - 9:30 a.m. Symposium and Oral Presentations

Symposium: CVI Impact Main Ballroom	Oral Session: Policy III Sheraton I	Oral Session: School & Mass Shootings Sheraton III
--	--	---

9:30 a.m. - 9:45 a.m. BREAK

9:45 a.m. - 11:15 a.m. Symposium and Oral Presentations

Symposium: Community Healing Main Ballroom	Oral Session: Suicide III Sheraton I	Oral Session: Neighborhood Sheraton III
---	---	--

11:15 a.m. - 12:45 p.m. Lunch and Poster Session 2 - Riverwalk

12:45 p.m. - 2:15 p.m. Symposium and Oral Presentations

Symposium: Equitable Research Main Ballroom	Oral Session: Place-Based II Sheraton I	Oral Session: Children & Youth Sheraton III
--	--	--

2:15 p.m. - 2:30 p.m. BREAK

2:30 p.m. - 4:00 p.m. Closing Ceremony and Awards - Main Ballroom
